

KLIK Boks PLUS Wireless Screen Sharing System

KB-601

KLIK Boks PLUS brings wireless screen sharing to busy offices, meeting rooms or classrooms where rapid-fire presentations take place. Equipped with extensive hardware connectivity, and a wireless remote control, KLIK Boks PLUS adapts to any environment, and puts you in control of the technology.

Key Features

- Supports full screen mirroring from Windows, Mac, iOS, Android & Chromebook devices
- Extensive connectivity, with both HDMI & VGA outputs for connection to a display
- Connects to your computer network with Ethernet or Wi-Fi for enhanced flexibility
- Includes wireless remote control for presentation management, media player control
- Supports Open Access, Password Access & Moderated Access operating modes
- Simple installation and setup using the KLIKWizard setup automation application
- Select from supplied images, or upload your own, for custom screen wallpapers

KLIK Boks PLUS brings a professional-level set of features, connectivity options and performance, within the reach of small business, government agencies and schools looking to boost productivity with wireless screen sharing. PLUS allows users to mirror their screen from Windows, Mac, iOS, Android or Chrome OS devices, even without installing an app, or gain valuable added features by using the free KLIKConnect app for their platform.

Designed to include extensive connectivity options, PLUS includes both HDMI and VGA video outputs, for compatibility with nearly any display. Separate analog and digital audio outputs are provided, for connection to an external sound system. KLIK Boks PLUS also includes an Ethernet port, allowing connection to a wired network for improved streaming performance and stability.

The included remote control allows a moderator to switch between presenters instantly, with just the press of a button. It also allows direct access to the built-in media player function, for playback of audio, video and image files in full-HD. Setup of the PLUS is fast and easy, using the KLIKWizard automation app, that not only guides you through the setup, it also allows selection of a custom wallpaper image, so you can this KLIK, your very own.

Additional KLIK Boks PLUS Features

Open Access

For organizations with only a few screens and frequent guests, KLIK offers Open Access operation, that requires no app installation. In open access mode, users connect from Windows, Mac, iOS and Android devices using the native streaming utilities in those operating systems. With full AirPlay 2 and Miracast support, KLIK lets users stream without installing an app on their device.

Password Access

In organizations where multiple screens are fitted with KLIK devices, it's important to keep users from inadvertently connecting to the wrong screen. KLIK manages user access by displaying a password on the standby screen, that users need to enter in order to get connected, preventing disruptions.

KLIKStream

It's not always easy to see the screen, especially in a big classroom or conference room, so KLIK includes the KLIKStream remote viewing feature. Simply launch a browser and view the presentation, right on your own screen; PCs, tablets and smartphones are all included. And, forget note-taking, because KLIKStream allows you to capture and save images of the presentation for later review.

Ethernet Connect

Network connections made over Ethernet are more reliable, so KLIK Boks PLUS includes a wired connection point that accepts industry-standard cables. In addition, wired connections are simpler to set up, requiring no additional network setting changes, in most cases.

USB Remote

The best way to move your presentation along is by using a wireless presentation remote, and KLIK makes it easier than ever to share a remote among presenters. Simply plug the remote, or any keyboard, mouse or pointing device into the KLIK, and it will control the PC that's streaming to it.

Moderated Access

In an environment where multiple presenters need to be cycled rapidly through the presentation system, KLIK allows the appointment of a Moderator. The moderator then controls who has access to the screen, by initiating screen sharing sessions as needed. For added confidence, the moderator can preview a user's screen to verify content, before making their screen live.

IR Remote Control

For rapid-fire switching between presenters, KLIK includes a wireless remote control. Just point at the screen and select the next user, just like changing the channel on a television set. Plus, the remote gives direct access to the media player and various settings, making it easy to use all functions of the KLIK, without a computer.

Whiteboard

Jump into a brainstorming session whenever the inspiration strikes you, with KLIK's Whiteboard feature. Similar to the Annotator, whiteboard allows you to draw, type and mark up on a traditional white surface. Save and share your notes, or switch between your desktop and the whiteboard at any time.

Please visit www.klikboks.com for a complete list of the KLIK Boks PLUS feature set.

Warranty

KLIK Boks PLUS is warranted against defects in workmanship and materials for a period of 3 Years from date of purchase by the consumer.

Specifications

Operational Specifications

Support for Native Streaming Utilities	<i>AirPlay (Mac OSX, iOS devices), Miracast (Windows 8.1+, Android devices)</i>
KLIKConnect Streaming App Versions	<i>Windows (7+), Mac OSX (10.1+), iOS (8.1+), Android (5.2+), Chrome OS (52+)</i>
Full screen mirroring support	<i>Windows, Mac, iOS, Android & Chrome OS</i>
Operating Modes	<i>Open Access (no password), Password Access, Moderator Mode</i>
Number of simultaneous connected users	<i>64</i>
Number of simultaneous users on screen	<i>1</i>
Support for extended desktop display	<i>Windows, Mac & Chromebook</i>
Moderated Mode control	<i>Via KLIKConnect app, Wireless Remote or Touch Screen Display</i>
Customization options	<i>Wallpaper, Device Name, Password, Do Not Disturb, AirPlay & Miracast</i>
KLIKStream Function	<i>View the presentation in a browser, screen capture, no app required</i>
Setup & Control options	<i>KLIKWizard, KLIKControl Center & OSD Control</i>
Touchscreen and Remote Compatibility	<i>Wireless USB, Touchback, Compatibility with core USB for HID devices</i>

Hardware Specifications

HDMI Output x 1	<i>NTSC, PAL, HDMI V 1.4, EDID, 1080p 60Hz, 1080i 50/60Hz, 720p, 576p, 480p</i>
VGA Output x 1	<i>1366x768 @ 60Hz, 1280x1024, 1280x800, 1024x768, 800x600</i>
Analog Audio Output	<i>Stereo, 16-bit, 44.1kHz, dual-RCA panel mounted connectors, parallel to HDMI audio</i>
Digital Audio Output	<i>Up to 5.1 channels. S/PDIF (TOSLINK), Optical, 16-24 bit, up to 192kHz, parallel to HDMI</i>
Ethernet Port	<i>IEEE 802.3, 10/100Mbit, supports DHCP or fixed IP, RJ45 jack</i>
Wireless Radio	<i>IEEE 802.11b/g/n, 2.4G/5G, WPA/WPA2, 54Mbit, dual detachable, external antennas</i>
Power Supply	<i>Universal 100-260VAC SMPS Adapter, USB Port, delivering 5VDC @ 2A, USB cable terminated to 5.5/2.1mm Barrel Connector</i>
Remote Control	<i>Wireless, IR multifunction remote control, onboard IR receiver</i>
Power Modes	<i>Auto power On, Standby Mode accessible from remote control</i>
USB Port x 1	<i>Type A, HID control interface, Firmware Update port, Media player content</i>
Indicator x 1	<i>Front-mounted LED, Power indicator</i>
Mode Button	<i>Side-mounted micro tact switch, initiates firmware updates from local media</i>
Reset Button	<i>Bottom mounted, recessed micro tact switch, resets device name and options to factory</i>

Physical Specifications

Device Dimensions (W x D x H)	<i>5.8 x 3.4 x 1.2 inches (153 x 86 x 29 mm) not including connectors and antennas</i>
Device Net Weight	<i>0.43 lbs. (0.195 kg)</i>
Included Accessories	<i>5V/2A, Type A (US)/G (UK)/C(EU)/I (AU) plug tips, USB Power Cable, Remote Control, Antennas (2), 2x AAA Alkaline batteries, Quick Start Guide</i>
Shipping Dimensions (W x D x H)	<i>9 x 3 x 8 inches (228 x 76 x 203 mm)</i>
Shipping Weight	<i>1.48 lbs. (0.68 kg)</i>
UPC /EIN Codes	<i>643462960095/0643462960095</i>
